

Organize Your Content

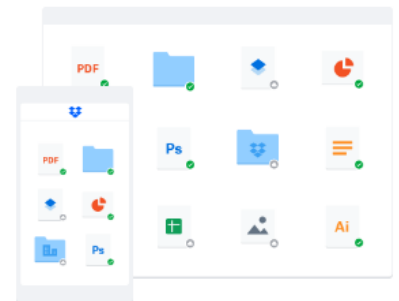

Centralize team content

Create, store, and share cloud content & traditional files in one place.

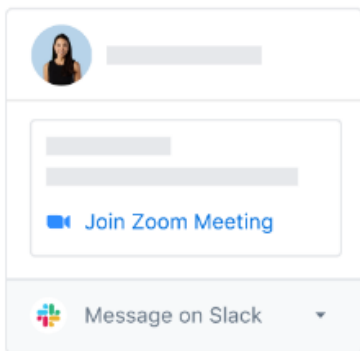

Transform Your Folders

Bring your files & cloud content together, so that all content is easily in one place.

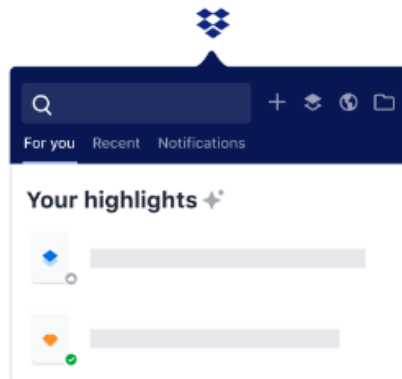

Team Collaboration

Easily access your team's work from your computer, mobile device, or any web browser.

Collaboration Tools

Connect to tools like Slack & Zoom to keep your team's files & conversations in one place.

Find What You Need Fast

Intelligently suggested files & folders keep your team a step ahead by giving everyone the content they need, when they need it.

Peace of Mind

Keep your company's information safe with a secure, distributed infrastructure along with admin tools for visibility.
