## We make HR easier.

Running payroll doesn't have to take hours. Our refreshingly intuitive software helps you check off all your administrative tasks as quickly as possible so you can spend more time on strategic projects. Plus, employees get their own login so they don't have to ask you for access to their paystubs, time off balances, and more.

## Compliance is our top priority.

Payroll compliance, benefits regulations, and HR laws can be confusing. They're always changing, and even the smallest misstep can lead to steep fines. With our all-in-one platform, Gusto helps you navigate the complexities of each regulation that impacts your company. We proactively keep you updated anytime a law changes, and even automate most of the compliance tasks for you.
