ReceiptBank™

Quickly and easily manage your expenses

Upload your receipt by taking a photo with your phone.

Just snap a photo of your receipt with your ReceiptBank app, forward the invoices to your unique ReceiptBank email address or connect ReceiptBank to your online suppliers directly. They can fetch the information for you.

Quick, accurate data extraction

ReceiptBank reads the key details from your receipts and invoices and then categorizes them according to your chart of accounts.

Safe Online Storage

Review the data and publish it to your cloud accounting software, export as a CSV file, or share with your accountant.

Extracts data from receipts & invoices

Collects invoices automatically from (1300+) online suppliers

Publishes effortlessly to connected accounting software

Automatically applies nominal codes, projects and tax rates

Instantly reconcile transactions with integrated bank feeds

Manage employee expenses

Boosts extraction speed for urgent items

Extracts data from bank statements
