

Business-Class File Sharing Meets Real-Time Collaboration

Securely Share Large Files

Easily access, send and sync. No cumbersome FTP, CDs or thumb drives required.

Protect Client & Business Information

Bank-level data encryption secures your files in transit and at rest. And with more than 25 customizable security settings, you have the power to recover lost data and prevent leaks.

Get a Partner in Compliance

Trust ShareFile to provide the support you need to maintain regulatory compliance with the guidelines affecting your industry— HIPAA, HITECH, FINRA, CFPB, bar association ethics rules and more.

Visit www.sharefile.com or call Avizo to learn more.
