

GOING BACK TO WORK

UNEMPLOYMENT VS. PPP

Unemployment is Short-Term

The additional \$600 per week from Federal unemployment is not designed to be a long-term solution. PPP is meant to make sure you keep your job.

You'll Have to Pay it Back

Unemployment is designated for those who find themselves without a job at no fault of their own. Refusing re-employment means any unemployment funds you collect after the day of refusal will have to be re-paid by you.

Employers Must Maintain Employment Levels

With a PPP loan, in order to get forgiveness, your employer is required to maintain the same amount of employees as before.

Coming Back Safely

Employers will be required to adhere to social distancing and safety measures. You can still use Emergency Paid Sick Leave and the Emergency Family Medical Leave provisions if you or someone in your home is sick.
